

Independent Project: Petersfield Through the Ages

Please choose one of the following options to work on as an independent project at school and at home.

A Choose a building or site within Petersfield and explain how this has changed over the years since it was first established

OR

B Research how Petersfield was during a different era (e.g. Norman times) and how this compares to modern day

Your work can be presented in a variety of different ways...electronically, written or as a model! Be ready to share this with your class from the week beginning 8th July. Remember to think like a historian; use your detective skills to find evidence to justify your explanations.

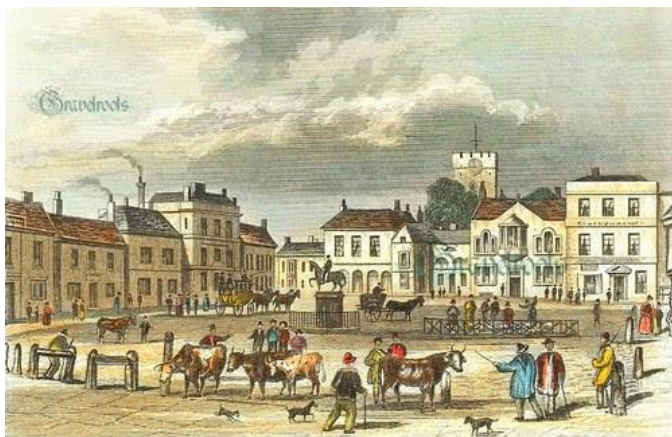

Here are some example of sentence stems you could use:

“Evidence from...shows us that...”

“I believe that this site is...because...”

“The ... era brought about the most change to the ... because...”

“In the ... this site was considered to be ...”
