# Gary's Big Adventure

- 11 Gary knew that he needed to find a vantage – a place  
22 which would give him a good view of the entire rainforest.  
34 Without that, a tiny frog like him would never be able to  
45 find them. But where could he go? He was surrounded by  
54 acres of thick, dense vegetation. No cliffs. No waterfalls.  
65 Suddenly, he had an idea. He stretched out his toes as  
75 wide as they would go and jumped towards the nearest  
84 tree trunk. Clinging on, he climbed higher and higher  
94 until he finally reached the canopy. He stood atop the  
101 wide-reaching fronds, looking towards the horizon in  
111 search of two tiny, blue specks, which looked just like  
122 him. Just as he had given up hope, an auburn orangutan  
132 swung by, carrying two sticky, blue lumps on her back...
